Schools

Prasenjit Saha

BUSINESS INTELLIGENCE ANALYST

Results-driven BI Analyst with 3+ years of experience turning complex, multi-source datasets into boardroom-ready insights. Specialist in Power BI, SQL, Python, and Tally ERP integration — with a proven record of automating reporting pipelines, building live Microsoft Dynamics dashboards, and deploying SharePoint-connected BI solutions that cut reporting time and support real operational decisions.

CORE COMPETENCIES

Power BI Development · DAX & Power Query · Tally ERP Integration · MS Dynamics Reporting · SharePoint BI Publishing · SQL Analytics · Python Automation · VBA Macros · AI-Assisted Data Cleaning · MIS & KPI Reporting · ETL Pipeline Design · Sales Analytics · HR & Attrition Analysis

PROFESSIONAL EXPERIENCE

Lalbaba Engineering · BI Analyst & MIS Reporting Specialist

Aug 2025 –

- ▶ **Tally multi-file consolidation:** Used Power Query M to join multiple Tally ERP export files into a unified master dataset — eliminating manual copy-paste and significantly reducing monthly close reporting time.
- ▶ **Microsoft Dynamics live dashboards:** Built interactive MIS dashboards sourcing real-time data from MS Dynamics, giving management live visibility into Finance, Pending Orders, Machine Runtime, and Utility Consumption (LPG, Compressor, Water, Electricity).
- ▶ **SharePoint BI deployment:** Published and maintained Power BI reports via SharePoint, enabling role-based departmental access without requiring individual Power BI licences.
- ▶ **AI + VBA + Python automation:** Combined AI-assisted data profiling, VBA macros, and Python (Pandas) to automate anomaly detection, data cleaning, and workbook splitting — cutting data preparation from hours to minutes.
- ▶ **HR & Finance MIS reports:** Delivered recurring reports on headcount, attendance trends, payroll cost, and finance summaries used in monthly management reviews.
- ▶ **Utility & machine tracking:** Built dashboards monitoring compressor runtime and LPG consumption patterns, helping operations identify wastage and reduce utility costs.

Khadim India Ltd · BI Analyst & Business Development Coordinator

Nov 2021 – J

- ▶ **Real-time sales dashboards:** Designed Power BI dashboards for live franchise-level and region-level sales monitoring, enabling same-period response to underperformance.
- ▶ **Franchise data pipeline:** Standardised and consolidated sales data from multiple franchise partners into a clean master file, improving KPI consistency across the network.
- ▶ **Revenue & KPI analysis:** Tracked revenue per franchise, sell-through rates, and seasonal trends — insights that directly informed stock allocation and promotional strategy.
- ▶ **Competitor & market intelligence:** Produced structured competitor analysis comparing pricing, product range, and store footprint; used as inputs in franchise expansion decisions.
- ▶ **Business development:** Attended franchise meets, conducted site surveys, and managed client relationships from lead generation through to deal closure.

Freelance BI & Reporting · BI Analyst & Reporting Specialist

- ▶ **Tally-to-Excel reporting for SMEs:** Extracted raw financial data from Tally DAT files, cleaned and restructured into professional formatted Excel reports for small business clients.
- ▶ **Automated Power BI dashboards:** Built daily, weekly, and monthly dashboards tailored to client workflows — reducing reporting from a half-day task to a single scheduled refresh.

Freelance · Sales Analyst & Graphic Designer

2012

- ▶ Administered sales reporting using Advanced Excel with robust data validation for financial accuracy.
- ▶ Created interactive Excel dashboards improving insight delivery and reporting efficiency for clients.

- ▶ Delivered design services: 3D modelling, interior visualisation, photo retouching, and video editing.
